**December 8, 2022**

**AGENDA ITEM NO. 1**

**SUBJECT:** Committee Reports

- Audit and Budget Committee report relating to the results of the December 8, 2022 Committee meeting.

**BACKUP  
MATERIAL:**

- Audit and Budget Committee meeting package can be viewed on the Board's secure website in the December 8, 2022 Board Meeting folder.

**December 8, 2022**

**AGENDA ITEM NO. 2**

**SUBJECT:** Consent Agenda Items

**DISCUSSION:** These items, since they deal with routine business, have been grouped together as consent items so that they can be approved with a single vote of the Board.

If a Board Member desires to discuss any of these items, the Board Member may so request at the meeting, and the matter will be discussed and voted on separately from the remaining consent items.

It is expected that the use of a consent agenda will streamline the decision-making process and allow the Board time to focus on more important items.

**BACKUP MATERIAL:**

Consent Agenda Item(s):

- A. Consider approval of meeting minutes of the September 8, 2022 Board of Directors meeting.

**ACTION**

**REQUESTED:** Consideration and action on the Consent Agenda Item(s).

### Permit 26D, Area B2-8 (146 acres) Bond Release Application

TMPA submitted a bond release application for Area B2-8 on 09/23/21. It was declared Administratively Complete on 01/7/22 and Commission Staff finalized their Technical Analysis recommending bond release on 02/25/22. The Administrative Law Judge has prepared a draft Order for release of the bond to be presented to the Commissioners on 12/13/22.

### Cancellation of Permit 26D

Area B2-8 will be the last area to be released from bond in Permit 26D (the mine area north of Gibbons Creek). TMPA will then request approval to plug the 8 Long-Term Groundwater Monitoring Wells in this permit area and, after that has been completed, the last step will be to request cancellation of the permit. The permit is over forty years old. It was originally issued on 08/4/1980 under the Texas state mining program that predated the federal mining program.

### Permit 38D, Pond SP-50 and Area A2-4 (198 acres) Bond Release Application

On 10/12/21, TMPA filed a bond release application for 198 acres in Permit 38D including Pond SP-50 (181 acres) and the A2-4 Area (17 acres). This was approved by the Commissioners on 09/20/22.

### Sale of Pond SP-50 Property (723 acres)

The Pond SP-50 Property consists of 723 acres east of Farm to Market (FM) Road 244 and includes 542 acres that were never bonded (Figure 2). This property is physically separate from the rest of the mine and was not included in the Lakes of Gibbons Creek property sold on 12/22/21.

**Figure 2 – Pond SP-50 Property (723 acres) and 3.33-acre Property**

Note: Green line depicts the Permit 38D boundary; red numbers in the white boxes show gates with access from a public road (Gates 19 and 19a are on State Highway 30).

TMPA contracted with Republic Ranch Sales, LLC for real estate brokerage services following authorization from the Board on 06/9/22 (Resolution No. 2022-6-1). Republic Ranches has since

been showing the property. However, the level of interest is not as great as expected due to the current state of the economy and the impact on the drought on the appearance of the property.

There is also a 3.33-acre sliver of land owned by TMPA nearby on the north side of State Highway 30 associated with a bridge that was built to accommodate a proposed mine haul road to the East Move mine area. The haul road was never built because the mine permanently closed in 1996. TMPA is in contact with the adjacent landowner to see if he would be interested in acquiring it.

Appraisals and surveys of these two properties have been completed. The appraisals, as of 08/11/22, were:

|                       |                                 |
|-----------------------|---------------------------------|
| Pond SP-50 Property – | \$7,231,000 (\$10,000 per acre) |
| The 3.33-acre tract – | \$17,000 (\$5,105 per acre)     |

### Cash Funding of the Mine Bonding Requirements.

On 12/9/21, the Board authorized the use of cash as collateral for the mine reclamation replacement bonds for the June 2023-June 2024 bonding term. The deadline for submitting the replacement bonds is 02/16/23. It is projected that the bonding requirements will be approximately \$1.6 million (Table 3).

### Acid Seep 9A – construction update

The first phase of the Seep 9A mitigation plan was the permanent lowering of the water levels of the two end lakes to reduce the “head” of water driving the seeps. This was accomplished in December 2020 and appears to have been successful because the seeps have become less active. The lowering of the end lakes also increased their capacity to contain large storm events. They therefore discharge less at those times, which helps to reduce erosion in the Seep 9A drainage.

The next phase consists of raising the floor of the drainage to keep the seeps underground as much as possible and to provide a suitable soil medium for permanent vegetation to become established and further reduce the risk of erosion. TMPA discussed its proposed plan with Railroad Commission Staff in an in-person meeting on 06/28/22 and started construction work on 07/6/22.

One part of the plan consists of installing one or more limestone rock drains wrapped in geotextile fabric along the main flowlines in the Seep 9A drainage and covering them with suitable soil (Fig. 3).

**AGENDA ITEM NO. 5**

**SUBJECT:** Status report relating to environmental and regulatory compliance matters.

**DISCUSSION:**

On February 10, 2021, the sale of GCSES and Gibbons Creek Reservoir to Gibbons Creek Environmental Redevelopment Group, LLC (GCERG) was finalized. There is one remaining staff position to manage the variety of compliance and environmental remediation oversight matters. Daniel's position, as the Compliance, Land, and Mine Manager, oversees GCERG's remediation progress, general compliance, land matters related to the mine and transmission, and has assumed various mine reclamation activities with the retirement of the Mine Manager in June 2022.

Remediation and Demolition of Gibbons Creek

The total demolition and remediation project, including the closure of Site A and F landfills, is now projected by GCERG to be physically complete at the end of May 2023, instead of the end of calendar year 2022 as previously reported. The revised timeline is due to the projected time to clean the Site A Landfill ponds. Despite the schedule revision, the work is estimated to be complete ahead of the APA schedule by a few months.

Update by Area

- The demolition and removal of the boiler and related structures is 100% complete.
- The excavation and hauling of the coal combustion residual (CCR) material from the scrubber sludge pond and ash ponds to Site F Landfill is 100% complete. Vegetation is currently being established in both areas.
- Site A Landfill closure is about 86% complete. The remaining work includes cleaning out Leachate Ponds 1 – 4 and hauling the material to Site F Landfill. The pond work is expected to be complete in March 2023.
- Site F Landfill closure is about 24% complete. Due primarily to the cleanout of the Site A Landfill ponds, the Site F completion date projection has moved from December 2022 to May 2023.

Regulatory Closure Update and Post-Closure

With much of the physical work winding down, the focus has shifted heavily to obtaining Regulatory Closure. GCERG has been in constant communication with the Texas Commission on Environmental Quality (TCEQ) in the effort to obtain closure on the Scrubber Sludge Pond, Ash Ponds, Plant Collection Pond, and Site A Landfill and related ponds. The process of closing these units with TCEQ has not been accomplished as quickly as GCERG had hoped or planned.

To date, GCERG has not received an official determination from TCEQ that these units are considered closed. Until TCEQ makes a closure declaration in writing, along with requirements for post-closure care, the Regulatory Closure Bond will remain at its original amount. The annual bond renewal occurs in early February 2023. A line item summary of each area is provided below:

- Scrubber Sludge Pond and Ash Ponds - GCERG has petitioned TCEQ to declare these CCR units closed. GCERG **was not** expecting TCEQ to impose post-closure monitoring requirements. **However, TCEQ has verbally indicated to GCERG that a conditional 30-year post-closure requirement may be imposed. If so, a post-closure bond from GCERG will be required.**
- Plant Demolition – GCERG is processing the cleanup of the plant site and related areas through the TCEQ’s Voluntary Cleanup Program (VCP) **and was expected** to be complete by the end of calendar year 2022. **However, TCEQ has communicated to GCERG that a one-year monitoring period will be required before a certificate of completion will be issued. Because of the monitoring period, GCERG plans to withdraw from the VCP program and perform a Phase II environmental assessment.**
- Site A Landfill – TCEQ is evaluating GCERG’s request to close leachate ponds 5-12 at Site A. GCERG has indicated that TCEQ has verbally declared the landfill to be closed. **TMPA does not accept this self-determination and requires a written declaration directly from TCEQ.**
- Site F Landfill – It is expected that TCEQ will require a 30-year post-closure monitoring period. The closure request from GCERG to TCEQ **was to** be submitted in early 2023. **Due to the timeline of cleaning the Site A Landfill ponds, it is likely that the closure request will occur in the third quarter of 2023.**

TMPA has also initiated discussions with GCERG regarding transition of site oversight, maintenance, and compliance for the post-closure period.

#### Financial Assessment – Total Security Available

Each month, TMPA evaluates the balance of the Escrow Fund and the Regulatory Closure Bond (collectively known as the Total Security Available) as compared to the Remaining Closure Cost Estimate.

Refer to Figure 1 below for a summary of the monthly calculation. The importance of this evaluation is to ensure that Total Security Available is higher than the Remaining Closure Costs in the unlikely event that GCERG ceased work at any moment.

To date, the Remaining Closure Cost Estimate has been calculated by TMPA as the product of the Regulatory Closure Bond Amount and a detailed calculation of the percent completion, as determined by TMPA. **As of the end of October 2022 (Period Ending 10-Nov-22; column F in Figure 1), TMPA calculates the current amount to be about \$13.8 million.**

The current determination is that the Total Security Available is **\$31.1 million** greater than the Remaining Closure Costs (Column G).

In August, GCERG requested a bond reduction claiming much of the work was substantially complete. TMPA stated that the request was premature because: 1. the APA allows for reduction of the bond amount when a remediation project is completed as determined by the regulatory agencies, and 2. the APA also prohibits any release or partial release of the Regulatory Closure Bond prior to receiving a Post-Closure Bond. Neither of these conditions were met.

**AGENDA ITEM NO. 6**

**SUBJECT:** FY22 Year-end Budget Status Report

**DISCUSSION:** This report, along with the attachments, provides a comparison of actual cost performance to budgets (approved at the Board meeting held on 6/10/21) for each business unit of TMPA as of FY22 year-end. The year-end results are summarized as follows:

| <b>GENERATION – Year-end Results</b>      |                        |               |                       |                          |

A&G costs were under budget (\$219K) primarily due to (a) reduced general legal expenses (most legal is charged directly to a division) and (b) reduced insurance premiums (non-property).

**Generation Division - Total Costs** were under budget by \$118K in FY22.

1. Labor & Benefits were \$68K lower as part of Daniel's time is now being allocated to the Transmission and Mine divisions.
2. Consulting Services were \$73K lower due to the Environmental Designee expenses coming in lower than budgeted. Also, Spill Prevention Control and Countermeasure development work for TMPA substations was charged directly to Transmission.
3. Legal Services were \$57K higher due to preparation for possible litigation related to Site F Landfill.

**Mine Division - Total Costs** were under budget by \$337K in FY22. As permitted by Resolution 2022-9-1, \$242,596 of eligible FY22 Mine O&M savings were transferred to the Acid Seep Project as of the end of FY22.

1. Labor & Benefits were \$75K lower due to Jan retiring at the end of June.
2. Mine Maintenance was \$102K higher in an effort to expedite bond release (i.e. replacement of collapsed culvert in B2-8 area, removal of land bridges in Pond SP-50 area, and completion of two projects on the Moody property).
3. Contractor Maintenance was \$58K lower due to laboratory expenses being charged to Consulting Services.
4. Consulting Services were \$193K lower due to hardly any soil or vegetation field work and relatively little need for map products due to relatively little permitting activity (two bond release applications were in Commission review in FY22 but required little extra permitting support).

**Transmission Division - Total Costs** were under budget by \$2.6M in FY22.

1. Labor & Benefits were \$95K higher as part of Daniel's time is now being allocated to the Transmission division for easement/encroachment matters. Also, charge-outs to capital projects came in lower than expected.
2. Contractor Maintenance was \$318K higher as project T20003, Gibbons Creek Decommission Transmission Phase I, was deemed not capital in nature and was therefore expensed. Also, transformer repair services came in higher than anticipated, namely at the Bryan East substation due to general price increases and for unexpected bushing testing/replacements.
3. Other Fixed Costs (Non-Debt) were \$235K higher due to increased material purchases due mainly to the West Denton lighting arrestor failure. Also, there were unbudgeted equipment rental fees associated with transformer and bushing repairs.
4. Debt Service - Bonds was \$1.9M lower due to the issuance of the Series 2021 bonds in July 2021. The approved budget reflects the previously outstanding Series 2010 and Series 2017 bonds that were both refunded by Series 2021.
5. Revolving Notes Interest was \$461K lower due to (a) interest rates remaining lower than budgeted for most of the year and (b) reduced Notes outstanding as \$30M of the Notes were fixed out as part of the Series 2021 bonds discussed above.
6. Transmission System Revenue was \$507K higher due to the 2021 Average 4CP being higher than projected.
7. Other Revenue is \$324K higher primarily due to unexpected scrap sales and transmission land easements.

*NOTE: There was no FY22 charge to the Member Cities for the Transmission division since revenues exceeded expenses.*

There will be a distribution of transmission funds as of the end of FY22. This was discussed at the September Board meeting and will be reviewed in further detail in **Agenda Item No. 10**.

**AGENDA ITEM NO. 7**

**SUBJECT:** Resolution No. **2022-12-1**, receiving the audited financial statements of the Agency for the fiscal year ended September 30, 2022; and resolving matters incidental and related thereto.

**DISCUSSION:** The Joint Operating Agreement requires that an audit of the Agency's financial statements be performed within 120 days of the close of each fiscal year. The audit for fiscal year 2022 has been completed, and the results will be presented to the Audit & Budget Committee in the meeting scheduled prior to the Board meeting on December 8, 2022. The attached resolution receives the audited financial statements of the Agency for fiscal year 2022 and directs that a copy of the audited financial statements be sent to each Member City.

BKD, LLP, TMPA's external audit firm, was part of a merger in early 2022 and is now FORVIS.

**RESOLUTION NO. 2022-12-1**

**A RESOLUTION BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY ("AGENCY") RECEIVING THE AUDITED FINANCIAL STATEMENTS OF THE AGENCY FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2022; AND RESOLVING MATTERS INCIDENTAL AND RELATED THERETO.**

---

**WHEREAS**, the Agency is required by the Joint Operating Agreement with the cities of Bryan, Denton, Garland, and Greenville, to cause the records and accounts and all transactions of the Agency relating to each business category to be subject to an annual audit by an independent certified public accountant within 120 days of the close of each Fiscal Year;

**WHEREAS**, the firm of FORVIS has completed the audit as required for the fiscal year ended September 30, 2022;

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY:**

1. That the above recitals are true and correct;
2. That the audited financial statements of the Agency for the fiscal year ended September 30, 2022 are received;
3. That a copy of the audited financial statements shall be sent to each Member City;
4. That it is officially found and determined that notice of this meeting of the Board of Directors of the Agency was given as required by law.

**PASSED AND APPROVED THIS 8<sup>TH</sup> DAY OF DECEMBER 2022.**

**AGENDA ITEM NO. 8**

**SUBJECT:** Resolution No. 2022-12-2, amending the fiscal year 2023 budget for the Mine Business; appropriating funds therefore; providing for said budget administration; providing for severability; and resolving matters incidental and related thereto.

**DISCUSSION:** At the Board meeting held on 6/9/22, the FY23 Mine Budget was approved that included \$1.4M for cash funding the mine bonding requirements with the Railroad Commission of Texas. In August 2022, the Commission issued updated equipment rates that must be used in the calculation of TMPA's bonding requirements. The per acre bonding costs have risen 20-35% over the last year, primarily due to record-breaking increases in motor fuel prices. Therefore, the amount needed to cash fund the bonding requirements has increased from the previously approved \$1.4M to \$1.85M.

If the B2-8 Area (Permit 26D) is released from bonding on 12/13/22 as scheduled, TMPA will need to cash fund only \$1.6M. However, as a precaution, staff is amending the budget for the full \$1.85M. If the B2-8 Area is released from bonding, the Member Cities will be billed only the lower amount.

It was previously anticipated that the sale of SP-50 would occur by the end of 2022, and TMPA would use a portion of those proceeds to cash fund with the Railroad Commission in February 2023. However, due to unfavorable market conditions, SP-50 has been temporarily taken off the market. Therefore, it will be necessary for TMPA to invoice each Member City their portion of the cash funding requirement on 1/3/23.

This amendment has no impact on the monthly charge to the Member Cities.

**RESOLUTION NO. 2022-12-2**

**A RESOLUTION BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY (“AGENCY”); AMENDING THE FISCAL YEAR 2023 BUDGET FOR THE MINE BUSINESS; APPROPRIATING FUNDS THEREFORE; PROVIDING FOR SAID BUDGET ADMINISTRATION; PROVIDING FOR SEVERABILITY; AND RESOLVING MATTERS INCIDENTAL AND RELATED THERETO.**

---

**WHEREAS**, on June 9, 2022, the Board adopted a separate Fiscal Year 2023 budget for the Mine Business;

**WHEREAS**, pursuant to Section 2.6.2.3 of the Joint Operating Agreement, the Board is authorized to amend the budget when necessary;

**WHEREAS**, to recover necessary costs for Fiscal Year 2023 relating to the cash funding of the mine bonding requirements, the Board desires to amend the Mine Budget, as reflected in Attachment A of this Resolution;

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY:**

1. That the above recitals are true and correct;
2. That this Board of Directors of the Agency adopts and approves an amended Fiscal Year 2023 Mine Budget, as shown in Attachment A, and further appropriates the funds therefore, subject to the provisions of the Rules & Regulations and General Policy of the Agency;
3. That the General Manager shall be responsible for administering the Fiscal Year 2023 amended Mine Budget, and all funds appropriated thereunder, subject to the provisions of the Rules & Regulations and General Policy of the Agency;
4. That should any portion of this Resolution or the Fiscal Year 2023 amended Mine Budget be declared invalid, the invalidity of that portion shall not affect the remainder of this Resolution or the amended Mine Budget, which shall remain valid;
5. That it is officially found and determined that notice of this meeting of the Board of Directors of the Agency was given as required by law;

**PASSED AND APPROVED THIS 8<sup>TH</sup> DAY OF DECEMBER 2022.**

**RESOLUTION NO. 2022-12-3**

**A RESOLUTION BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY (“AGENCY”) AMENDING CHARGES FOR THE MINE BUSINESS; DESIGNATING AN EFFECTIVE DATE FOR THE CHARGES; AUTHORIZING AND DIRECTING THAT WRITTEN NOTICE BE MAILED TO THE MEMBER CITIES SETTING FORTH THE CHARGES; AND RESOLVING MATTERS INCIDENTAL AND RELATED THERETO.**

---

**WHEREAS**, pursuant to Section 2.6.1.2 of the Joint Operating Agreement, the Board is authorized to set charges to recover the costs of the Mine Business and, pursuant to Section 2.6.2.3 of the Joint Operating Agreement, the Board is authorized to amend such charges when necessary;

**WHEREAS**, to recover necessary costs for Fiscal Year 2023 relating to the cash funding of the mine bonding requirements, an amendment should be made to the Agency’s charges for the Mine Business.

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY:**

1. That the above recitals are true and correct;
2. That the Schedule of Charges attached hereto as Exhibit “A” is adopted and approved as the amended charges for the Mine Business;
3. That the effective date for the charges hereby adopted shall be the date of approval of this resolution;
4. That it is expressly found that the charges approved herein are non-discriminatory, fair, reasonable, based upon the costs of the Mine Business, and adequate to pay or make provision for paying the costs of the Mine Business;
5. That the General Manager of the Agency is authorized and directed to simultaneously mail, on behalf of the Agency, notices to the Member Cities setting out the charges;
6. That it is officially found and determined that notice of this meeting of the Board of Directors of the Agency was given as required by law.

**PASSED AND APPROVED THIS 8<sup>TH</sup> DAY OF DECEMBER 2022.**

City of \_\_\_\_\_  
ATTN: Utility Director

Re: TMPA Rate Adjustment

Dear \_\_\_\_\_:

On December 8, 2022, the Texas Municipal Power Agency's Board of Directors adopted an amended one-time mine charge for purposes of collateralizing the mine reclamation bonds to be filed with the Railroad Commission of Texas in fiscal year 2023. A copy of the resolution is enclosed herein.

The amended one-time charge is, in the aggregate for all Cities, **\$1,850,000**, allocated among the Cities in accordance with the Joint Operating Agreement.

A copy of this notice has been mailed simultaneously to each Member City.

Sincerely,

---

Bob Kahn  
General Manager

**AGENDA ITEM NO. 10**

**SUBJECT:** Resolution No. **2022-12-4**, authorizing a distribution of transmission funds to the Member Cities; and resolving matters incidental and related thereto.

**DISCUSSION:** Section 4.2 of the JOA provides in pertinent part:

Effective September 2, 2018, all net proceeds from the annual operations of the Transmission Business category (after payment of the annual costs of the Transmission System and debt service on Transmission Debt) shall be used: (i) first, to fund the Decommissioning Reserve Account up to the cap for that account as stated in Section 5.5, and (ii) then, to the Indemnity Reserve Account up to the cap for that account as stated in Section 6.5. Any net proceeds remaining after the obligations described in (i)-(ii) shall be apportioned to each Participating Public Entity based on the following percentages: Bryan - 21.7%; Denton - 21.3%; Garland - 47%; Greenville - 10%.

Since the cap of the Decommissioning Reserve was reduced to \$0.00 in December 2021, and since the Indemnity Reserve has already been funded (escrow account established at UMB), there are available for refund to the Member Cities (after deduction of a 120-day cash reserve for FY23 operating expenses) transmission funds in the amount of \$16,246,204. The Resolution authorizes the distribution of these transmission funds to the Cities.

**RESOLUTION NO. 2022-12-4**

**A RESOLUTION BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY (“AGENCY”) AUTHORIZING A DISTRIBUTION OF TRANSMISSION FUNDS TO THE MEMBER CITIES; AND RESOLVING MATTERS INCIDENTAL AND RELATED THERETO.**

---

**WHEREAS**, as of the end of Fiscal Year 2022, \$16,246,204 in transmission funds are available for distribution to the Member Cities as contemplated by Section 4.2 of the Joint Operating Agreement (the “Transmission Net Proceeds”);

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY:**

1. That the above recitals are true and correct;
2. That the General Manager, or a person acting at his direction, is authorized to distribute to the Member Cities the Transmission Net Proceeds;
3. That the Transmission Net Proceeds shall be allocated to the Cities as follows:

|            |       |              |

**AGENDA ITEM NO. 11**

**SUBJECT:** Resolution No. 2022-12-5, approving the annual proportional share calculation of Member City ownership interests in Agency assets; and resolving matters incidental and related thereto.

**DISCUSSION:** Section 2.5 of the Joint Operating Agreement requires the Staff to prepare, and the Board to approve, on an annual basis, the Member City ownership shares in Agency assets by business category. Staff has prepared the recalculation as of September 30, 2022. The recalculation did not result in any changes to the ownership shares. The Resolution approves the recalculation, which is attached as an exhibit to the Resolution.

**REQUESTED:** Consideration and action on Resolution No. 2022-12-5.

**RESOLUTION NO. 2022-12-5**

**A RESOLUTION BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY (“AGENCY”) APPROVING THE ANNUAL PROPORTIONAL SHARE CALCULATION OF MEMBER CITY OWNERSHIP INTERESTS IN AGENCY ASSETS; AND RESOLVING MATTERS INCIDENTAL AND RELATED THERETO.**

---

**WHEREAS**, Agency Staff has prepared its annual calculation of Member City ownership interests in Agency assets by business category, as required by Section 2.5 of the Joint Operating Agreement;

**WHEREAS**, the Board has reviewed the calculation and desires to approve the calculation as required by the Joint Operating Agreement;

**NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE TEXAS MUNICIPAL POWER AGENCY:**

1. That the above recitals are true and correct;
2. That the Board approves the annual calculation of Member City ownership interests in Agency assets by business category, as shown in Exhibit “A”;
3. That, as required by Section 2.5 of the Joint Operating Agreement, the Board directs the Agency Staff, following the end of Fiscal Year 2023, to prepare the annual calculation of Member City ownership interests in Agency assets by business category, and to bring the calculation to the Board for approval;
4. That it is officially found and determined that notice of this meeting of the Board of Directors of the Agency was given as required by law.

\* Prior to 9/1/18, all charges to the Cities were bundled for the Agency as a whole. Beginning 9/1/18, the JOA required that the Agency bill the Cities by business category (Generation, Transmission, & Mine).  
\*\*These are non-production costs as the plant did not operate after FY18 and was sold in February 2021.

## **TRANSMISSION OPERATIONS STATUS REPORT** **NOVEMBER 2022**

---

### **Outage Summary:**

During the months of August, September and October 2022, TMPA had two planned outages on the 345kV system, five planned outages on the 138kV system and zero planned outages on the 69kV system. There was one forced extension on the 345kV, one on the 138kV and none on the 69kV system. There were no unplanned outages on the 345kV system, none on the 138kV system and none on the 69kV system.

The forced extensions were the maintenance and repair of the Ben Davis Auto XFMR #1

### **Personnel Summary:**

Every TMPA operator is NERC-certified and current with all continuing education requirements.

**TRANSMISSION FIVE-YEAR PROJECTS PLAN STATUS REPORT**  
**November 2022**

---

**SUBJECT:** Status report relating to the TMPA five-year transmission capital project plan.

**DISCUSSION:** The attached five-year Transmission Project Status Report incorporates the completion of Fiscal Year 2022 and forecasts expenditures for Fiscal Years 2023 through 2026. Projects reported as “Completed” in a previous report have been removed from this report.

Additional capital projects are being reviewed and discussed within the Transmission Engineering Working Group (TEWG) that could potentially affect the number of projects and capital investment on the Transmission Project Status Report.

Staff will update the Transmission Project Status Report and present to the P&O and Board as future capital projects are vetted and direction given.

**AGENDA ITEM NO. 13**

**SUBJECT:** Executive Session

Executive session will be held pursuant to the Open Meetings Act (Chapter 551, Government Code) for the following items:

- A. Status report relating to the sale of the Gibbons Creek Lignite Mine (value of real property under Section 551.072, Government Code).
- B. TMPA v. Gibbons Creek Environmental Redevelopment Group, LLC, Cause No. D-1-GN-22-004434, in the 126<sup>th</sup> District Court of Travis County, Texas (legal advice under Section 551.071, Government Code).

In the Board's discretion, the Board may discuss and/or take action on one or more of the above executive session items in open meeting. In regard to items scheduled on this Agenda for discussion and/or action in the open portion of the meeting, the Board may, in its discretion, address one or more of such items in executive session if and to the extent permitted by the Texas Open Meetings Act.

**AGENDA ITEM NO. 13A**

**SUBJECT:** Status report relating to the sale of the Gibbons Creek Lignite Mine.

**DISCUSSION:** An update will be provided at the meeting.

**BACKUP MATERIAL:** None.

**ACTION**

**REQUESTED:** None.

**AGENDA ITEM NO. 13B**

**SUBJECT:** TMPA v. Gibbons Creek Environmental Redevelopment Group, LLC, Cause No. D-1-GN-22-004434, in the 126<sup>th</sup> District Court of Travis County, Texas.

**DISCUSSION:** As discussed during the February, June, and September Board meetings, the Asset Purchase Agreement (“APA”) between TMPA and GCERG includes an agreed estimate of \$13.6 million as the cost to close the Site F Landfill. The APA contains a true-up mechanism providing that if “aggregate costs actually incurred” are greater than \$13.6 million, GCERG must absorb the additional cost, and if “aggregate costs actually incurred” are less than \$13.6 million, then TMPA is entitled to a refund of the difference.

The APA requires GCERG to report to TMPA’s Environmental Designee each month the Site F costs incurred to date, and the Environmental Designee is entitled to request and receive from GCERG supporting documentation.

GCERG’s January 2022 tabulation of Site F remediation costs included a 35% charge described as “Profit margin anticipated on actual costs”. After TMPA objected to profit being assigned to Site F costs, GCERG revised its description of the 35% charge to read “SG&A and Profit Margin on actual costs”. As discussed during the previous Board Meetings, while there are other costs being assigned by GCERG to Site F that are erroneous, the 35% charge for profit and overhead is the main concern.

TMPA Staff has estimated that, if the erroneously assigned costs are set aside, the actual cost of the Site F remediation should be approximately \$9.6M, in which case TMPA should be receiving a refund of approximately \$4M when the remediation is complete.

Negotiations with GCERG in an effort to resolve this dispute have not been successful. In fact, in response to TMPA objections, GCERG has increased the costs being assigned to Site F that TMPA believes are unrelated to the remediation of the Site F Landfill. As a result, on September 9, TMPA filed suit against GCERG in Travis County District Court.

As of the date of this writing, TMPA is awaiting responses to its discovery requests which were served on GCERG in October. Additional information relating to this matter will be provided at the December 8 Board Meeting.
